Potion Explosion was in my life since the day TotalBiscuit mentioned it on The Co-Optional Podcast. And now, the game made its sneaky way to Steam and I can't be happier, as I genuinely adore this game and everything about it. The only problem I really have with the game is that it seems that there is never anybody online to play it with. I love it as a digital version and I also got it on Android. The mechanics are easy to learn. Very fun game. Easy to understand and well worth the money. No bugs were found. Excellent, like the boardgame!

Of course, back then, he only talked about the board game and the mobile game I bought the Android version straight away and I spent countless hours of playing on both mobile and tablet. You will have to select ingredients in the dispenser; once your selected ingredient is removed, the ingredients above will slide down. I also recommend to get the expansion. Like the board game it makes the basic game much more fun. But, visuals and music, as well as the dash of silliness, are the main contributors for creating a wonderfully charming ambience that keeps me hooked for hours. You only have a limited tank space to store remaining ingredients from one turn to another, so choose carefully! Once a potion is completed, you score points, get to use its powerful effect and pick another potion to craft. I will absolutely recommend this game for anyone to try, especially, if you have people around to play with. Special shoutout for releasing a Linux version too, no issues whatsoever. Great Board Game Adaption! Love the board game so far and decided to get this game. You will then use your hard-earned unicorn tears, fairy dandruff and whatnot to craft powerful mixtures with wacky effects! May the best wizard win!

HOW TO PLAY At the beginning of the game, each player is given potions to complete with specific effects and ingredients.

If two ingredients of the same nature collide, they explode and you get them too! You can then use your ingredients to cook up your potions.

ly/2NJK6fe Mirror ->->-> <http://bit.ly/2NJK6fe> About This Game The official adaptation of Potion Explosion, the award-winning puzzle board game. Play this game solo or against players from all over the world with Solo, Online and Local Pass & Play modes!

In Potion Explosion, you will explode ingredients, trigger chain reactions and gather it all in your caldron.

Grade: A A very decent adaptation of the board game. Fun and quick to learn. not to diminish the enjoyment of solo or online play as I had a great deal of fun with both. The tutorial is very clear and it is easy to jump in. I haven't tried out online multiplayer yet, but so far I recommend this.

Excellent digital version of the boardgame! If you were a fan of the boardgame, which in itself felt like a classic videogame puzzler ala Tetris Attack/Yoshi's Cookie, this game is a great digital version of it. Addictive gameplay of potion making, filled with scheming and planning, is certainly the main draw for me. But don't think of it as an easy game. If you are a long thinker, then you can create powerful actions and defeat your opponents.
